## TYPOGRAPHY

Montserrat Bold is the primary typeface and matches the geometric uppercase wordmark used across the logos.

### Trade Intelligence

#### Dashboard summary and presentation headers

Use bold weights for titles, KPI figures, and key labels. Use lighter Montserrat weights for body content where available.

## BACKGROUND EXAMPLES

Preferred on white or soft neutral surfaces

Crest on navy for premium seal-style usage

## ANALYTICS PALETTE

This extended category palette supplements the core brand colours for charts, legends, KPI states, and dashboard categories. The colours are spaced further apart in hue and brightness, improving categorical contrast.

## USAGE EXAMPLES

### Dashboard KPI

Quarterly margin

**24.8%**

Above target

### Presentation cover

## Trade Performance Review

Use navy-led layouts with  
restrained gold accents.

### Social / avatar mark

- Use the light horizontal logo as the main brand signature for documents, decks, websites, and dashboards.
- Use the dark horizontal version when a cleaner, more restrained expression is needed on darker surfaces.
- Use the crest for compact placements such as profile images, seals, and icon-led brand moments.
- Use gold selectively for emphasis so navy remains the dominant structural colour.
